MEDICINAL.

STRENGTH

to vigorously push a business, strength to study a profession, strength to regulate a household, strength to do a day's labor without physical pain. All this represents what is wanted, in the often heard expression, "Oh! I wish I had the strength!" If you are broken down, have not energy, or feel as if life was hardly worth living, you can be relieved and restored to robust health and strength by taking BROWN'S IRON BITTERS, which is a true tonic—a medicine universally recommended for all wasting diseases.

For N. Fremont St., Baltimore

During the war I was injured in the stomach by a piece of a shell, and have suffered from it ever since. About four years ago I brought on paralysis, which kept me in bed six months, and the best doctors in the city said I could not live. I suffered fearfully from indigestion, and for over two years could not eat solid food and for a large portion of the time was unable to retain even liquid nourishment. I tried Brown's Iron Bitters and now after taking two bottles I am able to get up and go around and am rapidly improving.

G. DECKER.

BROWN'S IRON BITTERS is a complete and sure remedy for Indigestion, Dyspepsia, Malaria, Weakness and all diseases requiring a true, reliable, non-alcoholic tonic. It enriches the blood, gives new life to the muscles and tone to the nerves.

The Washington & Western Railroad.

A special dispatch from Washington to the Cincinnati Enquirer says: "Work has been commenced in earnest on the Washington and Western Railroad, formerly the Washington and Ohio, and the syndicate which now has control of the road announce their determination to complete it as early as possible. The road has been completed to Round Hill, fifty two miles from Alexandria, Virginia, and graded four miles beyond this point to Snickersville. The line has been surveyed as far as Winchester, Virginia, and the Company is locating eastward from this place with a view to the extension of the road and the early completion of it to Cincinnati. The Washington and Western Company has obtained control of the organization of the Baltimore, Cincinnati and Western, and the two Companies will soon be merged. It is stated that arrangements have been consummated for the extension of the Washington and Western from the West Virginia State line to Cincinnati under the charter of the Baltimore, Cincinnati and Western Railroad Co. It is claimed that the completion of the new line will reduce the distance between Baltimore and Cincinnati sixty miles less than by any other route. Within the past week a number of new passenger coaches have been put on the road between Alexandria and Round Hill, and negotiations are now in progress for several new locomotives and a number of freight cars. Under the present management passenger and freight rates were cut down fully 30 per cent, and in face of this the earnings for the past three months exceed those for the same period last year fully 50 per cent. A feature of the road will be the easy grade over the Blue Ridge Mountains, the maximum eastward is 79.2 feet, and westward 112 feet, with a maximum curvature of eight degrees. On the Pennsylvania road the mountain grade westward is 110 feet, and on the Baltimore and Ohio, 122 feet. These figures were obtained from an authoritative source, and were ascertained by actual surveys of the three roads. The increased traffic and travel over the Washington and Western road since the present syndicate assumed control of its affairs is stated by a very gratifying to the stockholders, and no backward step will be taken. Leading business men of New York, Boston, Cincinnati, and other principal cities of the country are interested in this project, and funds have been guaranteed to insure its completion. It has been found the most practical, shortest route between the West and the Atlantic seaboard."

WORKS FOR CREOSOTING TIMBER.—A water front on the Elizabeth River has been purchased from the Pocomoke Fertilizing Company by Mr. Edward R. Andrews, of New York, for the purpose of erecting thereon extensive works for creosoting timber. A barge has arrived through the Delaware and Chesapeake canal laden with immense boilers, pumps, cylinders, etc., the machinery destined for this purpose. Mr. Andrews expects to have the works in operation in October of this year. These works have been in operation during the last five years in Boston, Mass., and Elizabeth, N. J., but Mr. Andrews has been attracted by our superior climate and fine water front, as well as the variety of timber best adapted for the process to be found here, and by the necessity which exists of using the process to protect the piles with which our wharves are constructed, from destruction by the teredo navalis or the ship worm.—Norfolk Virginian.

A CARD FROM MISS HATCHETT'S FATHER. It having been stated that Miss Mamie Hatchett, of Lunenburg county, whose name figured in the Addison-Garland tragedy, denied having ever been engaged to Mr. Addison or having ever sent Garland the lengthy epistle he claims to have received, Mr. R. J. H. Hatchett, father of the young lady, has published a letter in which he says: "This is to say that the statement is absolutely false, and that my daughter has never denied being engaged to Mr. Addison or having written the letter to Mr. Garland, and, more than that, has never even alluded to the subject in the presence of any lady visiting Granville county. The various other false statements have not been corrected because she wished to avoid notoriety."
